Fire Department Accreditation

- The Layton City Fire Department became a registered agency with the *Commission on Fire Service Accreditation International* to begin the accreditation process.
- The fire department has completed approximately 80% of the self-assessment process.
- The first step of the accreditation process is a comprehensive and thorough evaluation of the fire department. The department is required to report on performance indicators including a description of current process, and an appraisal of the results of that process, with data, references and exhibits.
- The assessment requires the department to examine every possible program, system, and process, to produce a comprehensive written report to the CFAI. The categories that made up the self-assessment are
 - Human Resources
 - Assessment and Planning
 - Goals and Objectives
 - Financial Resources
 - Physical Resources
 - Governance & Administration
 - Training and Competency
 - Essential & External System Resources
 - Programs (fire suppression, emergency medical, hazardous materials, public education, fire prevention, disaster preparedness and technical rescue)
- Upon completion of the self-assessment, the fire department will undergo a comprehensive peer assessment to validate findings.
- Completion of the Commission on Fire Service Accreditation International will lead to improved and efficient customer service, further benefitting the community.

Fire Corps

Layton Fire Corps has been recognized in the National Fire Corps Newsletter

- Fire Corps program now included Northridge & Layton High drama students to assist with the Public Education Program.
- 8,517 students from 25 schools received vital fire and life safety education.

- Rehab 51 provides valuable firefighter rehab & homeowner services at fire & EMS incidents.
- The unit is staffed by Fire Corps members, many of whom are retired Layton City firefighters.

Wildland

- Responded to four large wildland fires in Utah & California per an agreement with Utah Fire, Forestry and State Lands.
- Chief Ward appointed to Northern Utah Interagency Incident Management Team as a Structural Protection Specialist.
- Chief Ward completed S-339 Division Supervisor training.
- Four team members completed NWCG Engine Boss qualification.

Brush #51 Purchased with Wildland Fire Revenue

*A total of \$155,955 has been received
in wildland response reimbursement
this calendar year.*

Training & Certifications

- Davis Applied Technology College Fire & EMS Program & Layton City continues training relationship. Received \$17,100 for equipment used for training academies.
- Captains & Battalions Chiefs attend quarterly training at the Regional Command Training Center.
- LFD participated in joint Hazardous Materials Team training with South Davis Metro Fire Agency
- Layton Fire participated in the regional Urban Search & Rescue (USAR) training in Weber County.
- Sent 20 personnel to outside training programs, such as
 - EMS Today & EMS Associates Conferences
 - Utah Summer & Winter Fire School, Wildland Fire Academy
 - National Fire Academy
- Six paramedics attend “Advance Airway Training” as part of the department’s transition to perform RSI (Rapid Sequence Intubation). *This life-saving procedure is currently restricted to medical flight crews only. The department now has 18 paramedics that have completed this training.*

All department members newly certified as Ice Rescue Technicians

Additional 2009 Highlights

- Fire Chief appointed as Vice-President of the Emergency Medical Services Directors Association.
- Fire Chief was a general session presenter on the 'Utah Fire Service Mutual Aid Plan' at the Governor's Public Safety Summit Conference in Provo.
- Training Battalion Chief is currently serving as President of the Utah Fire Training Officers Association. He also is serving as the regional representative for the Joint Fire Council of Fire Service Organizations.
- Assisted Weber Fire District with the Captains testing process.
- Held a station re-bid process
- Participated in Air Show planning and support for Hill AFB. Provided a paramedic ambulance and EMT-Intermediate ambulance for entire show days.
- Participated in a mock disaster prior to the Air Show, involving a simulated F-16 crash into a hazardous materials transport vehicle next to the Layton Hills Mall.
